Compose Two-Dimensional Shapes

Grade 1 Math Worksheet - Challenge Me

Name _____ Date _____

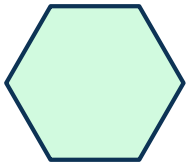

Circle the answer, or write the answer on the line.

1. Mia puts the triangle on top of the square. What shape does Mia make?

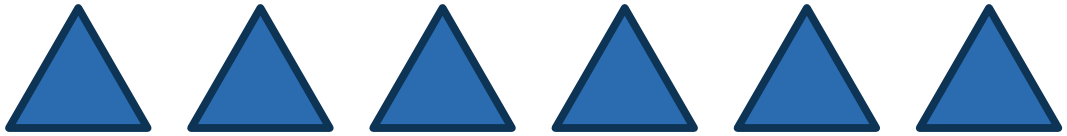

a house a hexagon a circle a triangle

2. Which pieces can be put together to make this shape?

2 half-circles 6 triangles 4 squares 2 squares

3. Ava puts the six triangles together so all the points meet in the middle. What shape does Ava make?

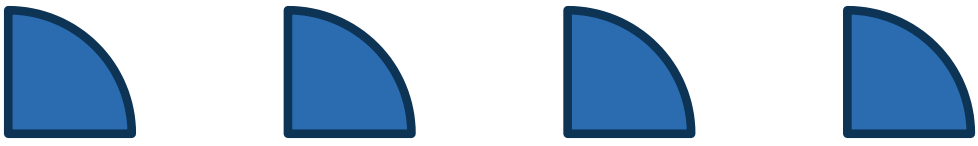

rectangle pentagon hexagon square

4. Count the pieces. How many pieces are there?

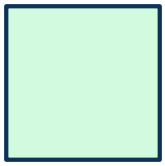

_____

5. Mia puts the four pieces together so the pointed corners meet in the middle. What shape does Mia make?

hexagon trapezoid square circle

6. Which pieces can be put together to make this shape?

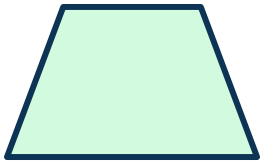

2 circles 4 quarter-circles 4 squares 3 circles

7. Ava puts the three triangles side by side in a row. What shape does Ava make?

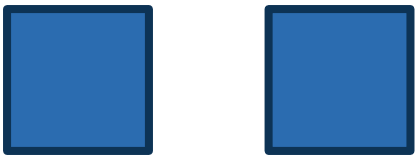

trapezoid pentagon triangle circle

8. Which pieces can be put together to make this shape?

3 circles 4 quarter-circles 2 half-circles 3 triangles

9. All of these pieces are the same shape. What shape are they?

pentagon circle hexagon square

10. Count the pieces. How many pieces are there?

_____

Compose Two-Dimensional Shapes

Answer Key - Grade 1 Math Worksheet - Challenge Me

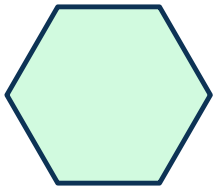

Circle the answer, or write the answer on the line.

1. Mia puts the triangle on top of the square. What shape does Mia make?

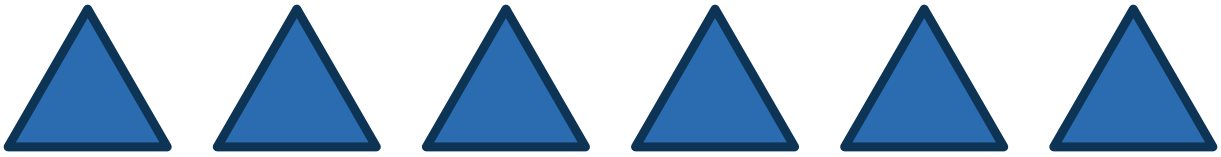

a house a hexagon a circle a triangle

2. Which pieces can be put together to make this shape?

2 half-circles 6 triangles 4 squares 2 squares

3. Ava puts the six triangles together so all the points meet in the middle. What shape does Ava make?

rectangle pentagon hexagon square

4. Count the pieces. How many pieces are there?

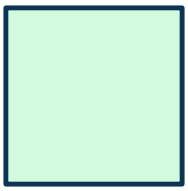

2

5. Mia puts the four pieces together so the pointed corners meet in the middle. What shape does Mia make?

hexagon trapezoid square circle

6. Which pieces can be put together to make this shape?

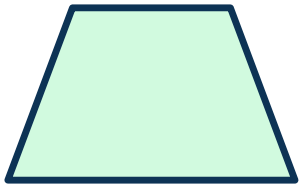

2 circles 4 quarter-circles **4 squares** 3 circles

7. Ava puts the three triangles side by side in a row. What shape does Ava make?

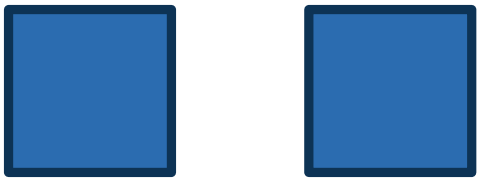

trapezoid pentagon triangle circle

8. Which pieces can be put together to make this shape?

3 circles 4 quarter-circles 2 half-circles **3 triangles**

9. All of these pieces are the same shape. What shape are they?

pentagon circle hexagon **square**

10. Count the pieces. How many pieces are there?

4
