Wings Over the Playground

Our school has a bare patch of dirt beside the playground. Nothing grows there except a few weeds. The second grade thinks we should turn it into a butterfly garden, and we need your help.

Butterflies need flowers to live. They drink nectar, a sweet juice found inside many blooms. Monarch butterflies also lay their eggs only on milkweed plants. Their caterpillars munch the milkweed leaves as they grow. In many towns, milkweed is harder to find than it used to be.

A garden would help our school too. We could watch caterpillars change into butterflies right outside our window. Classes could draw the flowers, count the visitors, and write about what they see. We believe a garden would make recess calmer and more fun.

Here is how you can help. Please bring a packet of flower seeds to the front office by Friday. Milkweed, zinnia, and coneflower seeds are all welcome. Then come to our planting day next Saturday at ten o'clock. Bring gloves if you have them.

One small patch of dirt can become a home for many butterflies. Let's grow it together!

By the Second Grade News Team

1. Why did the author include paragraph 2?
   to give a reason butterflies need a garden
   to describe the bare patch by the playground
   to explain how to plant milkweed seeds

2. Why does the author say that milkweed is harder to find than it used to be?
   to prove the dirt patch has milkweed growing there now
   to show that monarchs need more places with milkweed
   to show that milkweed is a weed nobody wants in a garden

3. What does the author ask readers to do?
   count butterflies at recess every day this month
   pull the weeds by Friday afternoon and clean up
   bring seeds by Friday and help plant on Saturday

4. Which detail helps the author show that a garden would help the school?
   Classes could draw the flowers, count the visitors, and write about what they see.
   Nothing grows there except a few weeds and some dry grass.
   Monarch butterflies also lay their eggs only on milkweed plants in the garden.
