Forces Change How Things Move

Grade 2 Science Worksheet

Name _____ Date _____

Read what happens. Circle what the push or pull does.

1. A rolling ball hits a wall and bounces back.

   slows down starts moving changes direction speeds up

2. A baby pushes a toy car on the floor.

   speeds up slows down starts moving changes direction

3. A wagon rolls down a ramp and goes faster and faster.

   starts moving stops moving changes direction speeds up

4. A driver turns the steering wheel.

   stops moving changes direction slows down speeds up

5. A bat hits a pitched ball and it flies back.

   stops moving changes direction speeds up slows down

6. A bike rolls onto gravel and slows.

   starts moving speeds up slows down stops moving

7. A boy pushes a swing that is hanging still.

   speeds up starts moving changes direction stops moving

8. A goalie catches a soccer ball in her hands.

   slows down starts moving stops moving changes direction
