Text 1: Long ago, people dragged heavy loads across the ground. Then someone invented the wheel, and loads rolled much more easily. Wheels were added to carts and wagons, and later to bicycles. Today wheels help cars, trains, and airplanes move.

Text 2: Sunlight looks white, but it is made of many colors. Soccer shoes have bumps on the bottom. When sunlight passes through raindrops, the colors bend apart. Red, orange, yellow, green, blue, and purple spread across the sky. You can see this when the sun is behind you and rain is in front.

Text 3: Mother sea turtles crawl onto the beach at night. They dig a hole in the sand and lay their eggs. After covering the eggs, they go back to the sea. Weeks later, the baby turtles hatch and race toward the water.

Text 4: Volunteers sort cans and boxes of food into groups. Drivers bring food from stores and farms. Neighbors come to pick up what their families need. Pandas climb bamboo trees. Everyone's work helps people who need a meal.
