READ THIS FIRST

Garden observation

A bee visited two flowers. Yellow pollen stuck to its body at the first flower and rubbed onto the second flower. Later, a burr with seeds hooked onto a dog's fur and traveled away from the plant.

5. Which observation shows seeds being moved to a new place?

   The burr traveled on the dog's fur.

   Pollen rubbed onto the second flower.

   The bee visited the first flower first.
