Water survey notes

The ocean sample tasted salty. The lake sample was fresh water. Both samples were liquid water. Snow on the nearby mountain was frozen water.

6. Which observation identifies water in its solid form?
   snow on the mountain the ocean sample the lake sample

7. Which list has only liquid water?
   lake, river, ice cap lake, river, groundwater lake, glacier, groundwater

8. What is an ocean?
   water that is under the ground
   a small pond of fresh water in a park
   a very large area of salt water

9. On a globe, a white area near the top and bottom often shows what?
   sand a lake ice and snow

10. What kind of water fills the ocean?
    groundwater frozen water salt water
