Climates Around the World

Grade 3 Science Worksheet - Building Confidence

Name _____ Date _____

Circle the answer.

1. A region is hot and dry almost all year, with very little rain. Which climate fits?

   polar climate desert climate rainforest climate

2. A region is warm and gets rain in most months of the year. Which climate fits?

   desert climate temperate climate rainforest climate

3. A region is very cold all year, and the ground stays frozen. Which climate fits?

   temperate climate polar climate rainforest climate

4. Climate describes the weather over how long?

   one week one afternoon many years

5. Which is a fact about climate, not a weather report?

   It is snowing right now.

   This city usually has hot summers.

   Tomorrow will be windy.

6. Places near the equator are usually what?

   cold all year warm all year snowy every winter

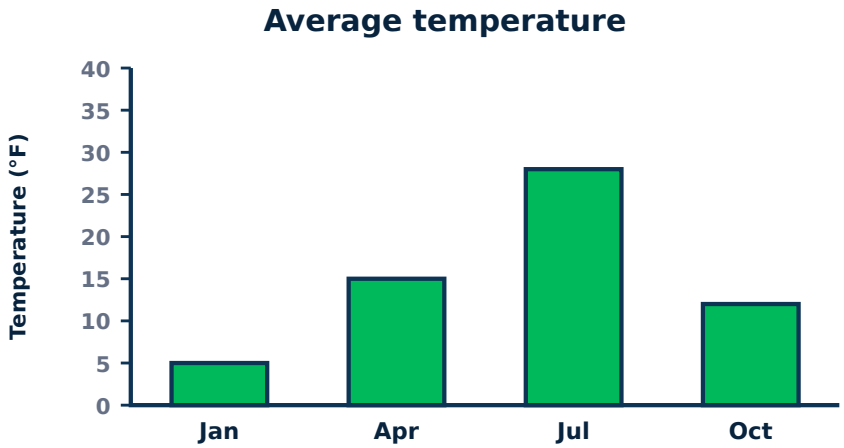

7. A family is visiting a rainforest. What should they pack?

   light clothes and a raincoat

   warm mittens and a scarf

   a heavy coat and snow boots

8. The graph shows a place's average temperature. Water freezes at 32°F. What climate does this place most likely have?

rainforest climate polar climate desert climate

9. Why is it colder at the top of a mountain than at the bottom?

the top gets more rain

the air is colder higher up

the top is closer to the ocean

10. Which two kinds of data describe a climate?

temperature and rain or snow

the number of rivers and lakes

clouds today and wind today

Climates Around the World

Answer Key - Grade 3 Science Worksheet - Building Confidence

Circle the answer.

1. A region is hot and dry almost all year, with very little rain. Which climate fits?

   polar climate **desert climate** rainforest climate

2. A region is warm and gets rain in most months of the year. Which climate fits?

   desert climate temperate climate **rainforest climate**

3. A region is very cold all year, and the ground stays frozen. Which climate fits?

   temperate climate **polar climate** rainforest climate

4. Climate describes the weather over how long?

   one week one afternoon **many years**

5. Which is a fact about climate, not a weather report?

   It is snowing right now.

   This city usually has hot summers.

   Tomorrow will be windy.

6. Places near the equator are usually what?

   cold all year **warm all year** snowy every winter

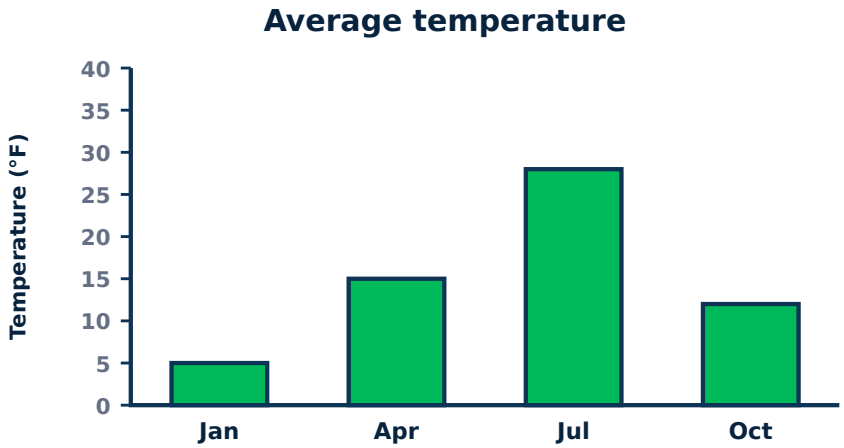

7. A family is visiting a rainforest. What should they pack?

   light clothes and a raincoat

   warm mittens and a scarf

   a heavy coat and snow boots

8. The graph shows a place's average temperature. Water freezes at 32°F. What climate does this place most likely have?

rainforest climate

polar climate

desert climate

9. Why is it colder at the top of a mountain than at the bottom?

the top gets more rain

the air is colder higher up

the top is closer to the ocean

10. Which two kinds of data describe a climate?

temperature and rain or snow

the number of rivers and lakes

clouds today and wind today
