Climates Around the World

Grade 3 Science Worksheet - Building Confidence

Name _____ Date _____

Circle the answer.

1. Which climate has four seasons, with cold winters and warm summers?
   polar climate rainforest climate temperate climate

2. Which would you most likely find in a polar climate?
   tall rainforest trees
   hot sand dunes
   ice that stays frozen most of the year

3. A region is hot and dry almost all year, with very little rain. Which climate fits?
   rainforest climate desert climate polar climate

4. A region is warm and gets rain in most months of the year. Which climate fits?
   desert climate temperate climate rainforest climate

5. A region is very cold all year, and the ground stays frozen. Which climate fits?
   polar climate temperate climate rainforest climate

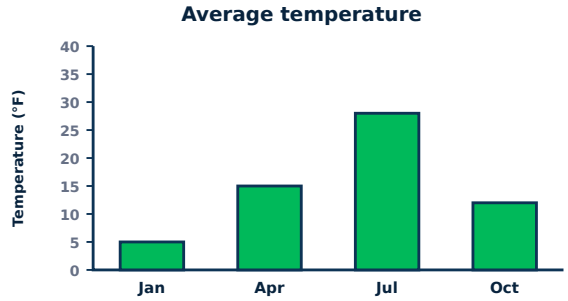

6. Climate describes the weather over how long?
   many years one week one afternoon

7. Which is a fact about climate, not a weather report?
   This city usually has hot summers.
   It is snowing right now.
   Tomorrow will be windy.

8. Places near the equator are usually what?
   cold all year warm all year snowy every winter

9. A family is visiting a rainforest. What should they pack?
   a heavy coat and snow boots
   light clothes and a raincoat
   warm mittens and a scarf

10. The graph shows a place's average temperature. Water freezes at 32°F. What climate does this place most likely have?

polar climate desert climate rainforest climate

Climates Around the World

Answer Key - Grade 3 Science Worksheet - Building Confidence

Circle the answer.

1. Which climate has four seasons, with cold winters and warm summers?
   polar climate rainforest climate **temperate climate**

2. Which would you most likely find in a polar climate?
   tall rainforest trees
   hot sand dunes
   ice that stays frozen most of the year

3. A region is hot and dry almost all year, with very little rain. Which climate fits?
   rainforest climate **desert climate** polar climate

4. A region is warm and gets rain in most months of the year. Which climate fits?
   desert climate temperate climate **rainforest climate**

5. A region is very cold all year, and the ground stays frozen. Which climate fits?
   polar climate temperate climate rainforest climate

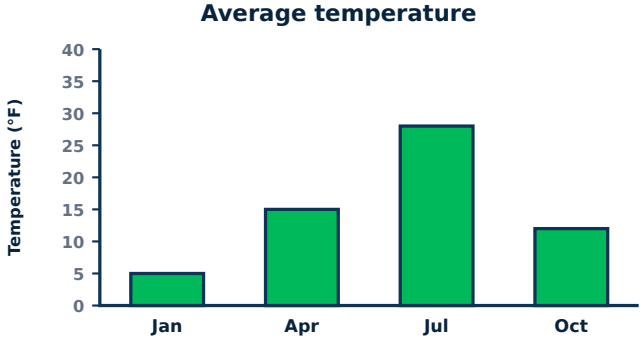

6. Climate describes the weather over how long?
   many years one week one afternoon

7. Which is a fact about climate, not a weather report?
   This city usually has hot summers.
   It is snowing right now.
   Tomorrow will be windy.

8. Places near the equator are usually what?
   cold all year **warm all year** snowy every winter

9. A family is visiting a rainforest. What should they pack?
   a heavy coat and snow boots
   light clothes and a raincoat
   warm mittens and a scarf

10. The graph shows a place's average temperature. Water freezes at 32°F. What climate does this place most likely have?

polar climate desert climate rainforest climate
