Grade 3 Math Worksheet - Building Confidence

Name _____ Date _____

Circle the answer, or write the answer on the line.

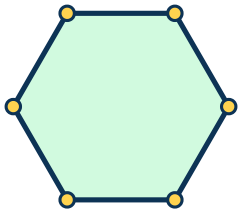

1. Which attribute do all squares have?

five corners four equal sides no right angles

2. Which shape is a quadrilateral?

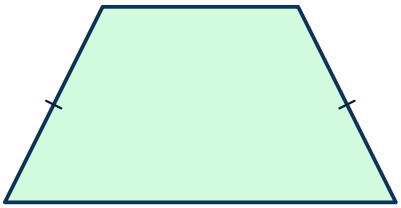

triangle hexagon rhombus

3. How many corners does this shape have?

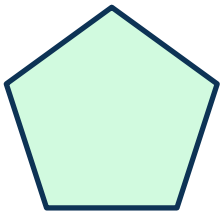

_____

4. Which word names this shape's group?

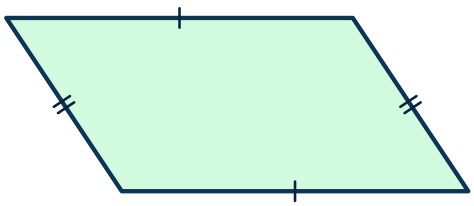

pentagons quadrilaterals triangles

5. How many sides does this shape have?

_____

6. Tick marks show equal sides. Which attribute does this shape have?

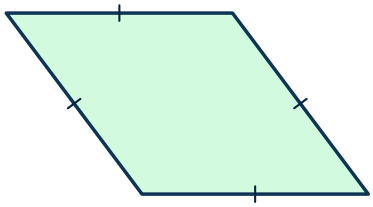

opposite sides are equal it has four right angles it has three sides

7. Which shape is NOT a quadrilateral?

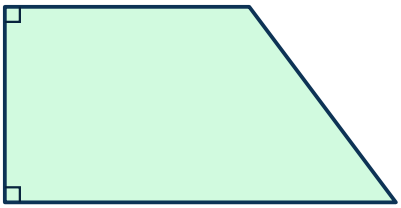

triangle rhombus square

8. Tick marks show this shape has four equal sides. Which name fits it?

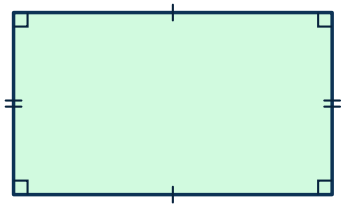

square rhombus trapezoid

9. Small squares show right angles. How many right angles does this shape have?

_____

10. Which attribute makes this shape a rectangle?

it has four right angles

it has only two equal sides

it has three right angles

Answer Key - Grade 3 Math Worksheet - Building Confidence

Circle the answer, or write the answer on the line.

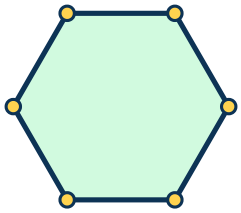

1. Which attribute do all squares have?

five corners four equal sides no right angles

2. Which shape is a quadrilateral?

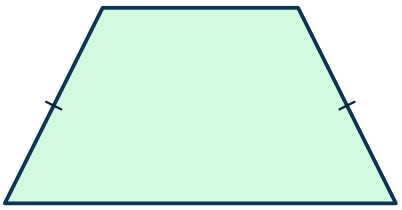

triangle hexagon rhombus

3. How many corners does this shape have?

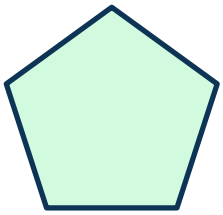

6

4. Which word names this shape's group?

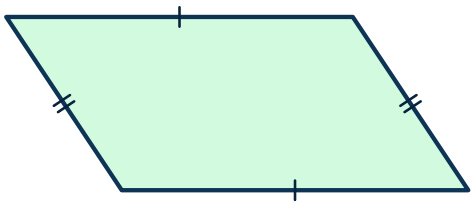

pentagons quadrilaterals triangles

5. How many sides does this shape have?

5

6. Tick marks show equal sides. Which attribute does this shape have?

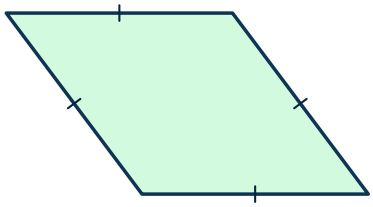

opposite sides are equal it has four right angles it has three sides

7. Which shape is NOT a quadrilateral?

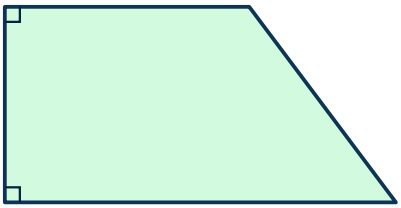

triangle rhombus square

8. Tick marks show this shape has four equal sides. Which name fits it?

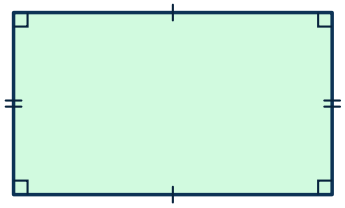

square rhombus trapezoid

9. Small squares show right angles. How many right angles does this shape have?

2

10. Which attribute makes this shape a rectangle?

it has four right angles

it has only two equal sides

it has three right angles
