Grade 3 Math Worksheet - Building Confidence

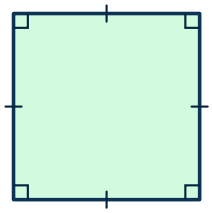

Name _____ Date _____

Circle the answer, or write the answer on the line.

1. Which shape is a quadrilateral?

triangle hexagon rhombus

2. Tick marks show equal sides. What do the tick marks on this shape tell you?

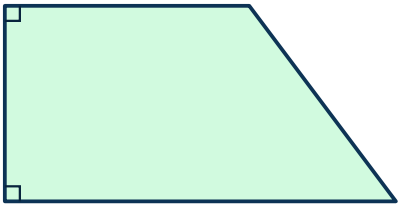

only two sides are equal

all four sides are equal

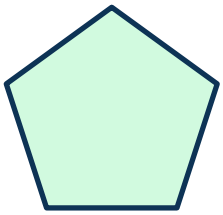

the top side is the longest

3. Small squares show right angles. How many right angles does this shape have?

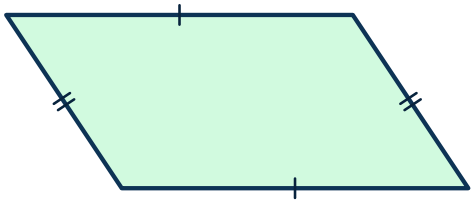

_____

4. How many sides does this shape have?

_____

5. Tick marks show equal sides. Which attribute does this shape have?

opposite sides are equal it has four right angles all four sides are equal

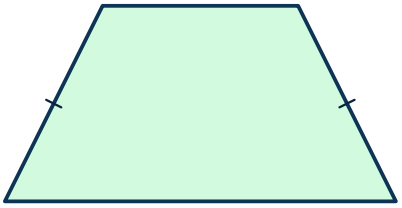

6. Which word names every shape with four straight sides?

pentagon quadrilateral rectangle

7. Which attribute do all squares have?

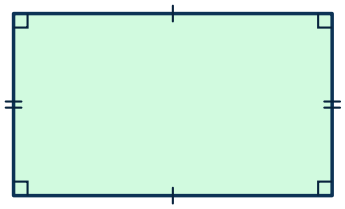

four equal sides five corners only two equal sides

8. Which word names this shape's group?

quadrilaterals pentagons triangles

9. Which attribute makes this shape a rectangle?

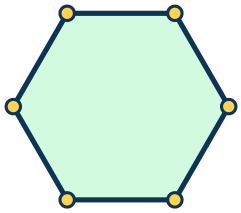

it has three right angles

it has only two equal sides

it has four right angles

10. How many corners does this shape have?

_____

Answer Key - Grade 3 Math Worksheet - Building Confidence

Circle the answer, or write the answer on the line.

1. Which shape is a quadrilateral?

triangle hexagon **rhombus**

2. Tick marks show equal sides. What do the tick marks on this shape tell you?

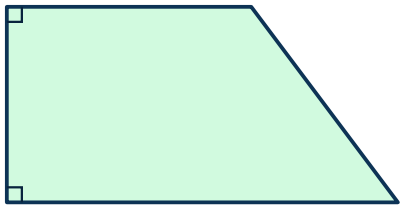

only two sides are equal

all four sides are equal

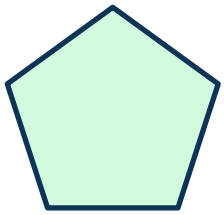

the top side is the longest

3. Small squares show right angles. How many right angles does this shape have?

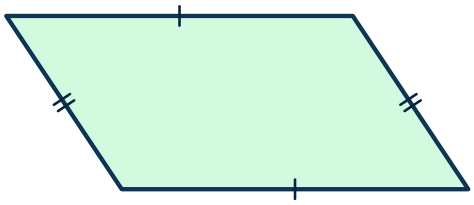

2

4. How many sides does this shape have?

5

5. Tick marks show equal sides. Which attribute does this shape have?

opposite sides are equal it has four right angles all four sides are equal

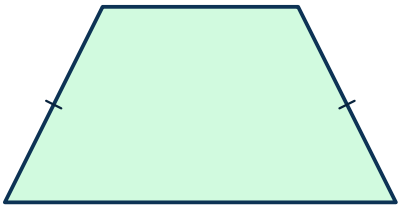

6. Which word names every shape with four straight sides?

pentagon **quadrilateral** rectangle

7. Which attribute do all squares have?

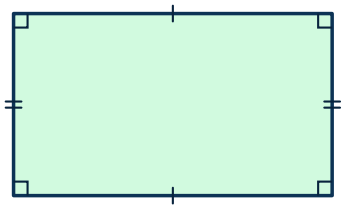

four equal sides five corners only two equal sides

8. Which word names this shape's group?

quadrilaterals pentagons triangles

9. Which attribute makes this shape a rectangle?

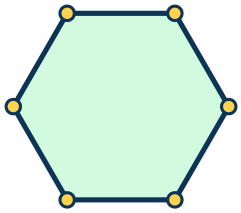

it has three right angles

it has only two equal sides

it has four right angles

10. How many corners does this shape have?

6
