Shadow Measurements, Class Record

We measured a flagpole's shadow three times in one day. At 9:00, it was 12 feet long. At noon, it was 3 feet long. At 3:00, it was 10 feet long. The sun was highest at noon.

5. Read the source. Write a focused research question, two notes that answer it, and one sentence that tells what you learned.

Research question _____

_____

Note 1 _____

_____

Note 2 _____

_____

What I learned _____

_____
