The Water Cycle

Grade 3 Science Worksheet - Building Confidence

Name _____ Date _____

Write the stage of the water cycle: evaporation, condensation, precipitation, or collection.

1. Water that falls on the ground flows into rivers, lakes and oceans. Stage: _____

2. Water vapor cools high in the sky and turns into tiny drops that form clouds. Stage: _____

3. Rain, snow and hail fall from the clouds to the ground. Stage: _____

4. A puddle slowly dries up on a sunny day. Stage: _____

5. The sun warms the ocean, and some water turns into a gas and rises. Stage: _____

6. Water vapor rises into the air from lakes and rivers. Stage: _____

7. The ocean holds most of Earth's water after it falls and runs off. Stage: _____

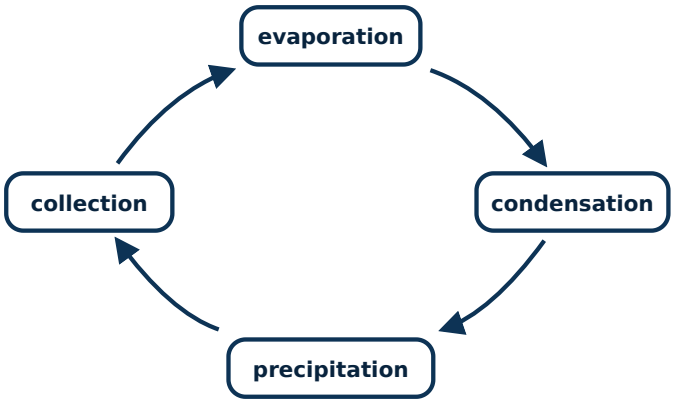

8. A cold glass of water gets wet on the outside on a warm day. Stage: _____

The Water Cycle

Answer Key - Grade 3 Science Worksheet - Building Confidence

Write the stage of the water cycle: evaporation, condensation, precipitation, or collection.

1. Water that falls on the ground flows into rivers, lakes and oceans. Stage: **collection**

2. Water vapor cools high in the sky and turns into tiny drops that form clouds. Stage: **condensation**

3. Rain, snow and hail fall from the clouds to the ground. Stage: **precipitation**

4. A puddle slowly dries up on a sunny day. Stage: **evaporation**

5. The sun warms the ocean, and some water turns into a gas and rises. Stage: **evaporation**

6. Water vapor rises into the air from lakes and rivers. Stage: **evaporation**

7. The ocean holds most of Earth's water after it falls and runs off. Stage: **collection**

8. A cold glass of water gets wet on the outside on a warm day. Stage: **condensation**
