READ THIS FIRST

The Night Sky at Camp

On Saturday night, the campers at Pine Lake Camp lay on their backs in an open field. Counselor Kim pointed out the Big Dipper, a group of seven stars shaped like a ladle. Then she showed the children how to find the North Star by following the two stars at the end of the Dipper's cup. Zoe used a red flashlight to read a star map, because white light is hard on eyes in the dark. Everyone stayed until the moon rose over the lake.

1. Who pointed out the Big Dipper?

   a park ranger Zoe Counselor Kim a camp cook

2. What is the Big Dipper shaped like?

   a kite a boat a ladle a circle

3. Where did the campers lie down?

   on a dock on a hill in their tents in an open field

4. When did the campers watch the sky?

   Saturday morning Friday night Saturday night Sunday night

5. Why did Zoe use a red flashlight?

   The map was red. White light stings. Red is brighter. Zoe liked red.

6. How did the campers find the North Star?

   with a lens by following two stars with a compass by counting stars

7. What did everyone wait for?

   the stars to fade the sun to set the moon to rise the fog to clear

8. Who read a star map?

   Zoe the whole camp Counselor Kim a park ranger
