Map Earth Process Effects

Grade 4 Science Worksheet - Challenge Me

Name _____ Date _____

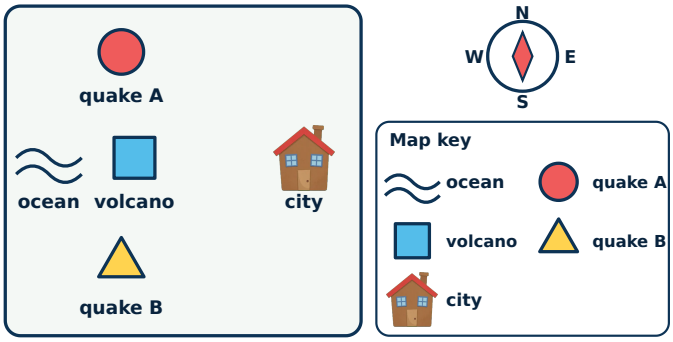

Circle the answer.

1. Look at the picture. Which letter marks land that has water on every side?

A D C B

2. Look at the map. Which conclusion does the map support?

the city is in the most active area
volcanoes and quakes are on opposite sides
quakes happen evenly everywhere on the map
quakes and the volcano are grouped along the coast

3. A map shows mountains in the west and a wide, flat plain in the east with a river. Which pattern fits?

the plain is higher than the mountains
the river flows from the western mountains toward the eastern plain
rivers do not form near mountains
the river flows from the plain up into the mountains

4. A map shows a large delta at the end of a river. What does the delta tell you about the river?

it flows uphill
it has no water in it
it carries a lot of mud and sand
it starts at the ocean
