Regions of the United States

Grade 4 Social Studies Worksheet

Name _____ Date _____

Circle the answer.

1. A family drives from Ohio to New Mexico. Which regions do they start and end in?
   - the Northeast, then the Southwest
   - the Northeast, then the West
   - the Southeast, then the Southwest
   - the Midwest, then the Southwest

2. Which climate fits the Southwest?
   - warm and very humid, with swamps
   - cold and snowy most of the year
   - cool and rainy along the coast
   - hot and dry, with little rain

3. Why were many car and steel factories built near the Great Lakes?
   - The lakes give factories desert land.
   - Hurricanes bring workers to the lakes.
   - Ships on the lakes carry heavy goods cheaply.
   - The lakes keep factories warm in winter.

4. How are the Northeast and the Southeast alike?
   - Both have deserts and mesas.
   - Both have the Rocky Mountains.
   - Both border the Pacific Ocean.
   - Both have coasts on the Atlantic Ocean.

5. Which climate fits the Northeast?
   - warm all year, with hurricanes
   - mild and rainy on the Pacific
   - snowy winters and colorful falls
   - hot and dry all year long
