Renewable and Nonrenewable Resources

Grade 4 Science Worksheet

Name _____ Date _____

Circle the answer.

1. Look at the graph of a town's electricity. Which source gives the most?

wind natural gas coal solar

2. Why is coal a nonrenewable resource?
   it is black and hard
   people use it in many places
   it takes millions of years to form
   it is found deep underground

3. Which choice saves fossil fuels?
   driving to a friend's house next door
   leaving the TV on all night
   turning off lights you are not using
   keeping the fridge door open

4. Wind farms make no smoke but can harm birds. Coal plants harm air. Which plan reduces harm from a wind farm?
   add a coal plant beside the wind farm
   build the turbines on top of nesting areas
   place turbines away from bird flight paths
   make the blades spin faster

5. Mining coal can change the land. Which effect is most likely?
   the land becomes a lake of oil
   the coal grows back the next year
   new forests grow over the mine at once
   hills and forests are removed to reach the coal

Renewable and Nonrenewable Resources

Answer Key - Grade 4 Science Worksheet

Circle the answer.

1. Look at the graph of a town's electricity. Which source gives the most?

wind **natural gas** coal solar

2. Why is coal a nonrenewable resource?

it is black and hard
people use it in many places
it takes millions of years to form
it is found deep underground

3. Which choice saves fossil fuels?

driving to a friend's house next door
leaving the TV on all night
turning off lights you are not using
keeping the fridge door open

4. Wind farms make no smoke but can harm birds. Coal plants harm air. Which plan reduces harm from a wind farm?

add a coal plant beside the wind farm
build the turbines on top of nesting areas
place turbines away from bird flight paths
make the blades spin faster

5. Mining coal can change the land. Which effect is most likely?

the land becomes a lake of oil
the coal grows back the next year
new forests grow over the mine at once
hills and forests are removed to reach the coal
