How Animals Sense the World

Grade 4 Science Worksheet - Building Confidence

Name _____ Date _____

Circle the answer.

1. Look at the cards. A squirrel hears a hawk call. What goes in the middle card?

its brain links the call to danger
it looks for nuts to bury
its tail hears the call too

2. A puppy chewed a bitter plant once and spat it out. It never chews that plant again. What guided its response?

a new sense of smell it grew
its fur telling it to stop
a memory of the bitter taste

3. A rabbit hears a loud clap near the garden. Which response makes the most sense?

the rabbit lies down in the open
the rabbit hops toward the clap
the rabbit runs into its burrow

4. A fish sees a shadow pass over the water. It darts under a rock. Which step happened between seeing and darting?

it remembered the rock from last year
its fins sensed the shadow first
its brain treated the shadow as danger

5. A dolphin makes clicks and listens for echoes. What information does this give it?

where objects are in the water around it
how warm the air is above it
what the water tastes like
