# Supply and Demand

Grade 4 Social Studies Worksheet - Challenge Me

Name _____ Date _____

Circle the answer.

1. Look at the graph. If every buyer gets one plant, how many plants will be left over?

30 plants 20 plants 10 plants 40 plants

2. A school says every student needs a calculator. Many families want to buy one. Stores have the same supply. What will probably happen at the stores?

Stores will have calculators left over.

There will be a shortage of calculators.

Calculator prices will fall.

There will be a surplus of calculators.

3. Game tickets cost $20. The stadium sells out in one hour, and many fans get no ticket. What does this tell you?

Few fans wanted tickets to the game.

More fans wanted tickets than the stadium had.

The stadium had just enough tickets for fans.

The stadium had more tickets than fans wanted.
