Properties of Matter

Grade 5 Science Worksheet

Name _____ Date _____

Read each observation. Circle the property that it shows.

1. A clear plastic bottle shows how much water is left.

   magnetic conducts electricity dissolves in water transparent flexible

2. Sunlight passes through a glass of water.

   magnetic conducts electricity dissolves in water transparent flexible

3. Honey stirs into warm tea.

   magnetic conducts electricity dissolves in water transparent flexible

4. A compass needle swings toward a magnet.

   magnetic conducts electricity dissolves in water transparent flexible

5. A steel paper clip jumps toward a magnet.

   magnetic conducts electricity dissolves in water transparent flexible

6. Sugar cubes break up and vanish in warm tea.

   magnetic conducts electricity dissolves in water transparent flexible

7. A rope bends into a knot.

   magnetic conducts electricity dissolves in water transparent flexible

8. A rubber hose bends around a corner.

   magnetic conducts electricity dissolves in water transparent flexible

Properties of Matter

Answer Key - Grade 5 Science Worksheet

Read each observation. Circle the property that it shows.

1. A clear plastic bottle shows how much water is left.

   magnetic conducts electricity dissolves in water **transparent** flexible

2. Sunlight passes through a glass of water.

   magnetic conducts electricity dissolves in water **transparent** flexible

3. Honey stirs into warm tea.

   magnetic conducts electricity **dissolves in water** transparent flexible

4. A compass needle swings toward a magnet.

   magnetic conducts electricity dissolves in water transparent flexible

5. A steel paper clip jumps toward a magnet.

   magnetic conducts electricity dissolves in water transparent flexible

6. Sugar cubes break up and vanish in warm tea.

   magnetic conducts electricity **dissolves in water** transparent flexible

7. A rope bends into a knot.

   magnetic conducts electricity dissolves in water transparent **flexible**

8. A rubber hose bends around a corner.

   magnetic conducts electricity dissolves in water transparent **flexible**
