Protecting Earth's Resources

Grade 5 Science Worksheet

Name _____ Date _____

Read each item. Circle whether it is a renewable resource, a nonrenewable resource or a way to protect resources.

1. Plastic made from oil.
   renewable resource nonrenewable resource way to protect resources

2. Using a reusable water bottle.
   renewable resource nonrenewable resource way to protect resources

3. Gravel mined from a quarry.
   renewable resource nonrenewable resource way to protect resources

4. Sunlight.
   renewable resource nonrenewable resource way to protect resources

5. Composting food scraps.
   renewable resource nonrenewable resource way to protect resources

6. Coal burned for electricity.
   renewable resource nonrenewable resource way to protect resources

7. Turning off the circle while brushing teeth.
   renewable resource nonrenewable resource way to protect resources

8. Reusing glass jars.
   renewable resource nonrenewable resource way to protect resources

9. Soil that is kept healthy.
   renewable resource nonrenewable resource way to protect resources

10. Wood from forests that are replanted.
    renewable resource nonrenewable resource way to protect resources

Protecting Earth's Resources

Answer Key - Grade 5 Science Worksheet

Read each item. Circle whether it is a renewable resource, a nonrenewable resource or a way to protect resources.

1. Plastic made from oil.
   renewable resource **nonrenewable resource** way to protect resources

2. Using a reusable water bottle.
   renewable resource nonrenewable resource **way to protect resources**

3. Gravel mined from a quarry.
   renewable resource **nonrenewable resource** way to protect resources

4. Sunlight.
   renewable resource nonrenewable resource way to protect resources

5. Composting food scraps.
   renewable resource nonrenewable resource **way to protect resources**

6. Coal burned for electricity.
   renewable resource **nonrenewable resource** way to protect resources

7. Turning off the circle while brushing teeth.
   renewable resource nonrenewable resource **way to protect resources**

8. Reusing glass jars.
   renewable resource nonrenewable resource **way to protect resources**

9. Soil that is kept healthy.
   renewable resource nonrenewable resource way to protect resources

10. Wood from forests that are replanted.
    renewable resource nonrenewable resource way to protect resources
