Protecting Earth's Resources

Grade 5 Science Worksheet - Building Confidence

Name _____ Date _____

Read each item. Circle whether it is a renewable resource, a nonrenewable resource or a way to protect resources.

1. Reusing glass jars.
   renewable resource nonrenewable resource way to protect resources

2. Soil that is kept healthy.
   renewable resource nonrenewable resource way to protect resources

3. Wood from forests that are replanted.
   renewable resource nonrenewable resource way to protect resources

4. Using solar panels.
   renewable resource nonrenewable resource way to protect resources

5. Gasoline made from oil.
   renewable resource nonrenewable resource way to protect resources

6. Turning off lights when you leave a room.
   renewable resource nonrenewable resource way to protect resources

7. Ocean tides.
   renewable resource nonrenewable resource way to protect resources

8. Plants grown for fuel.
   renewable resource nonrenewable resource way to protect resources

9. Taking shorter showers.
   renewable resource nonrenewable resource way to protect resources

10. Uranium for nuclear power.
    renewable resource nonrenewable resource way to protect resources

Protecting Earth's Resources

Answer Key - Grade 5 Science Worksheet - Building Confidence

Read each item. Circle whether it is a renewable resource, a nonrenewable resource or a way to protect resources.

1. Reusing glass jars.
   renewable resource nonrenewable resource **way to protect resources**

2. Soil that is kept healthy.
   renewable resource nonrenewable resource way to protect resources

3. Wood from forests that are replanted.
   renewable resource nonrenewable resource way to protect resources

4. Using solar panels.
   renewable resource nonrenewable resource **way to protect resources**

5. Gasoline made from oil.
   renewable resource **nonrenewable resource** way to protect resources

6. Turning off lights when you leave a room.
   renewable resource nonrenewable resource **way to protect resources**

7. Ocean tides.
   renewable resource nonrenewable resource way to protect resources

8. Plants grown for fuel.
   renewable resource nonrenewable resource way to protect resources

9. Taking shorter showers.
   renewable resource nonrenewable resource **way to protect resources**

10. Uranium for nuclear power.
    renewable resource **nonrenewable resource** way to protect resources
